

AERIAL ARTS

ACTS:

- Silks
- Sling
- Lyra (Aerial Hoop)
- Dance Trapeze (**not swinging**)
- Rope
- Lyra Sphere
- Aerial Bartending/Champagne Pouring
- Harness Work, Wall Dancing, Bungee

FREESTANDING APPARATUS:

- Lollipop Lyra Sphere
- Freestanding Aerial Rig

TECHNICAL REQUIREMENTS:

Aerial Arts: The ceiling height must be a minimum of 10 ft (recommended 15 ft or higher) for aerial sling, lyra, or lyra sphere. The ceiling height must be a minimum of 15 ft (recommended 20 ft or higher) for aerial silks, rope, dance trapeze, or harness. Performer(s) are qualified to safely rig all aerial equipment; however, some venues require a certified rigger (Client must check with the venue). The rig point must hold a minimum of 1500 lbs of dynamic force for aerial performance, and a 6 ft diameter clearance under the Performer(s) is requested (free of tables, guests, décor, catering or servers, etc). Clearance exceptions are made for aerial bartending/champagne pouring. The Performer(s) can gladly speak to the venue representative about any potential rig points. The venue is to provide a ladder, lift, or access from above to all rig points.

Lollipop Lyra Sphere: The lollipop lyra sphere is a freestanding aerial apparatus. It is 10ft high with an 8 ft diameter footprint. Risers or stages must hold a minimum of 500 lbs to support the lollipop lyra sphere. The lollipop lyra sphere may be used indoors or outdoors. Set up takes 1 hour; break down takes 30 minutes.

Freestanding Aerial Rig: The freestanding aerial rig is a four-post metal frame sufficient for rigging aerial equipment. It stands at 18 ft high and has a footprint of 20 ft x 20 ft. It may be used indoors or outdoors. No guests, venue employees, catering, servers, or any other personnel may be underneath the aerial rig at any time. Set up takes 1 hour; breakdown takes 30 minutes.

AERIAL ARTS RATES:

Aerial Arts can be performed as **Showcase Acts** or as **Ambient Hourly Entertainment**.

1) Showcase Act: A fast paced choreographed act. This is an event-stopping, all-eyes-on-the-performer act. These acts are tightly choreographed to music and include all of the performer's best tricks in a short time. Acts like this are usually no longer than 6 minutes.

2) Ambient Hourly Entertainment: Slower paced "ambient" or "atmospheric" entertainment. This type of performance is done without an announcement or specific music. It is considered an ambient addition to an event rather than a show. These acts are more focused on dance and posing rather than big tricks, though large tricks are included in ambient sets. Ambient sets are 10-15 minutes in length and include 2-3 sets per hour.

**Pricing is the same for 1 Showcase Act OR
1 hour of Ambient Entertainment.**

Aerial Arts, 1 Performer:	MASTER LEVEL <i>[highest level aerial performance]</i>	1 hour	\$800
		2 hours	\$1400
		3 hours	\$2000
